The Guam Museum Foundation, Inc is communicating progress on-line for island residents, government and private sector businesses, as well as international organizations and Chamorro clubs across the world to see.

We are confident that anyone who views the site will receive much needed information about the foundation's vision and mission and have instant access to the design, plans, location, storyline approach and exhibition narrative theme **I Hinanao-ta; the journey of the Chamorro people.**

Financial contributors, students, teachers, professors, historians and curators will have research and study resources available to them such as: **Financial Feasibility Study** and **USDA Small Business Opportunity around the Guam Museum.**

In sections called the **News & Photo Gallery**, we are also recognizing and highlighting sponsors and donors otherwise known as Friends of the Museum. Viewers can also reflect or learn with old photos and stories in Guam's history.
